EACH YEAR, MORE AND MORE AMERICANS WILL HEAR THE WORDS, "YOU HAVE PANCREATIC CANCER"

Pancreatic cancer is one of the most deadly cancers. The combined 5-year survival rate for all cancer stages is 12%, which with the help and support of donors like you, is a notable improvement over the 6% 5-year survival rate when Amy's Ride/Run/Walk first began in 2015.

Still, pancreatic cancer is a formidable disease, recently rising to the **3rd leading cause of cancer death** in the United States. It is expected to become the 2nd by 2030. There are no early detection tools. And, while the incidence of many other cancers is **decreasing**, the rate of pancreatic cancer is **increasing**.

Funding from organizations like **Pancreatic Cancer Cure Foundation** is critical for key progressive research and treatment initiatives.

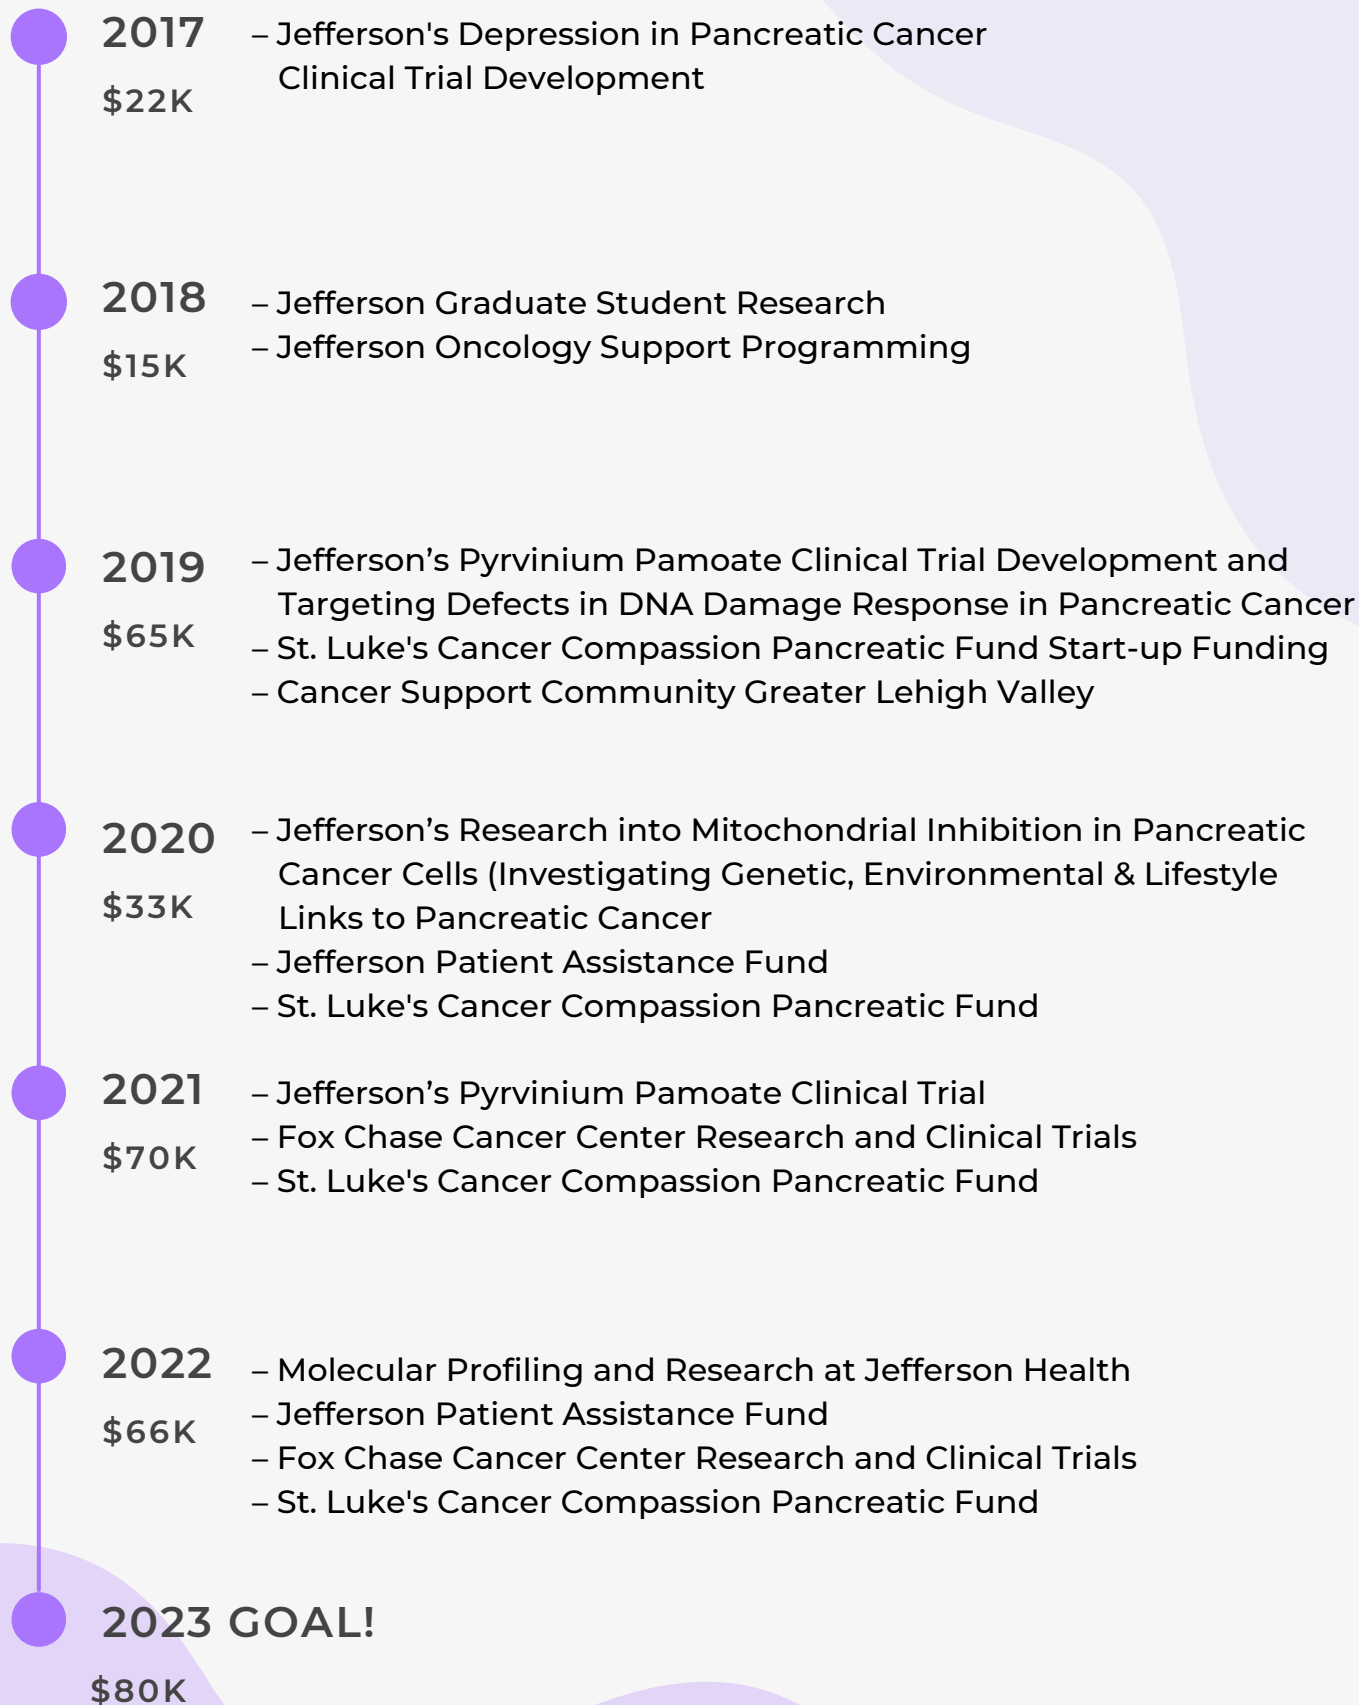

SINCE 2015, PCCF HAS DONATED OVER \$330,000!

THE STORY BEHIND AMY'S RIDE/RUN/WALK

In November of 2014 Amy (Cygan) Spier lost her 3-year battle with pancreatic cancer.

During her treatment at Jefferson, we learned about the shockingly underfunded research programs for pancreatic cancer.

Amy's courage and resolve inspired us to carry on her fight against pancreatic cancer. Together with our community and supporters like you, we are making a difference.

THANK YOU!

**PLEASE CONSIDER SUPPORTING THIS CRITICAL CAUSE
WITH YOUR SPONSORSHIP OR SUPPORT.**

There are several levels of sponsorship, we're certain one will fit your charitable contribution budget.

Any support you're able to provide will be appreciated by all those affected by this terrible disease. In anticipation, we thank you for your kindness and your generosity.
